NET ASSET VALUE PER SHARE

The net asset value per share for each Sub-Fund and, if there are more than one class of shares in a Sub-Fund, the net asset value per share for each class of shares, are calculated on each bank business day in Luxembourg (the “Valuation Date”) and each last day of the financial year or half-year by the Administrative Agent under the responsibility of the SICAV’s Board of Directors. The net asset value is not calculated on the first business day after the last day of the financial year or the half-year.

RISK MANAGEMENT PROCEDURE

The SICAV will use a risk management procedure enabling it to monitor and measure, at any time, the risk of the positions and their contribution to the overall risk profile of each Sub-Fund. The SICAV shall also use a method for accurate and independent assessment of the value of OTC derivative instruments. Each Sub-Fund must ensure that the sum of commitments arising from derivatives instruments does not exceed the net value of the portfolio. Such commitments are calculated considering the current value of the underlying asset, counterparty credit risk, changes in the futures contract market and the time needed to settle positions. Pursuant to Law of December 17, 2010, as well as regulations and circulars in force, specifically CSSF circular 11/512, each Sub-Fund must use a risk management procedure that assesses market exposure, liquidity risks and counterparty risks, as well as any other type of risk, including operational risks, that prove to be material for the Sub-Fund.

Commitment approach

Regarding the risk management procedure, some Sub-Funds use the commitment approach to monitor and measure the total exposure. This approach measures the total exposure in relation to financial derivative instruments (“FDI”) and other effective portfolio management techniques, if any, considering any effects of settlement and hedging, if any, which should not exceed the total net value of the Sub-Fund's portfolio.

Based on the standard commitment approach, each FDI position is converted into the market value of the equivalent position in its underlying asset.

The following Sub-Funds use the commitment approach:

Base Investments Sicav – Bonds Value
Base Investments Sicav – Bonds USD
Base Investments Sicav – Bonds CHF
Base Investments Sicav – Flexible Low Risk Exposure
Base Investments Sicav – Equities U.S.A.
Base Investments Sicav – Equities Europe
Base Investments Sicav – Equities Asia
Base Investments Sicav – Equities Switzerland
Base Investments Sicav – I.D.E.A.
Base Investments Sicav – Short Term
Base Investments Sicav – Euro Hedging
Base Investments Sicav – Lepton

Value at Risk (VaR) approach

Regarding the risk management procedure, some Sub-Funds’ global exposure is monitored and measured using the absolute VaR approach.

In financial mathematics and risk management, the VaR approach is a widely used method to calculate the risk of loss on financial assets of a specific investment portfolio. For a given investment portfolio, with a given probability level and time horizon, VaR is defined as the limit on which basis the potential loss of the investment portfolio's market value over the given time horizon exceeds such limit (under normal market conditions and with no transactions involving the investment portfolio) is equal to said probability level.

The VaR is calculated based on a single confidence level of 99%, as well as a 20-days holding period.

The VaR of the Sub-Fund is limited by an absolute VaR calculated on the basis of the net asset value of the Sub-Fund and not exceeding a maximum VaR, which is determined by the Board of Directors, taking into account the investment policy and risk profile of the Sub-Fund.

The following Sub-Fund uses the VaR approach: Base Investments Sicav – Bonds Multicurrency

**RISK MANAGEMENT PROCEDURE
(continued)**

For Base Investments Sicav – Bonds Multicurrency, the VaR limit during the period was:

Minimum VaR: 0.43%

Maximum VaR: 2.94%

Average VaR: 1.58%

The VaR model is based on a historical simulation with an observation period of one year. The holding period is one month (20 days). The limit for the sub-fund is 20% as fixed by the Law in force.

The average leverage of the year for the sub-fund was as follows: 550.95%

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

a) Consolidation

The total net asset value of the SICAV is expressed in Euro. The consolidation of the different Sub-Funds is obtained by converting in Euro the net assets of the

different Sub-Funds and summing them using the exchange rate as at September 30, 2014. As at September 30, 2014, the total of cross Sub-Funds' investments amounts to EUR 3,521,303.71 and therefore total combined NAV at semi-annual closing without cross-investments would amount to EUR 471,462,738.35.

b) Valuation of the portfolio of the SICAV

1. The value of cash in hand and on cash deposits, notes and bills payable at sight and accounts receivable, prepaid expenses and dividends and interest declared or matured but not yet received shall be valued on the nominal value of such assets, except where it seems unlikely that this amount will be received; in which case, the value shall be determined by deducting an amount that the Board of Directors considers adequate to reflect the real value of these assets.
2. The valuation of any security listed on an official stock exchange or any other regulated market, regularly operating, recognised and open to the public is based on the last known price in Luxembourg on the Valuation Date and, if this security is traded on several markets, on the basis of the last known price on its principal market; if the last known price is unrepresentative, the valuation shall be based on its probable realisation value, as estimated by the Board of Directors prudently and in good faith.
3. Futures contracts and options are valued considering the previous day's closing prices known in the market concerned. The prices used are the settlement prices known in the futures markets.
4. Securities not listed or traded on a stock exchange or any other regulated market, regularly operating, recognised and open to the public, will be valued in accordance with their probable realisation value, as estimated by the Board of Directors prudently and in good faith.
5. Securities denominated in a currency other than the relevant Sub-Fund's reference currency shall be converted using the average exchange rate of the relevant currency.
6. Units of Undertakings for Collective Investment are valued considering their last available net asset value.
7. Swaps are valued at their fair value, based on the last closing price known for the underlying security.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

8. Money market instruments that are not listed or traded on a stock exchange or any other regulated market shall be valued at their nominal value plus accrued interest or on the basis of amortised costs.
9. Open forward foreign exchange contracts at the date of NAV calculation are valued with reference to the forward foreign exchange rate for the remaining period until maturity.
10. All other transferable securities and assets shall be valued at their fair value, as determined in good faith and in accordance with the procedures established by the Board of Directors or by a committee designated for this purpose by the Board of Directors.
11. Dividends are taken into account on the date upon which the relevant investments are first listed as ex-dividend. Interest income is accrued on a daily basis.

c) Formation expenses

Formation expenses are amortised over the first five accounting years.

If a new Sub-Fund is created in future, it will pay for its own incorporation costs which will be amortised over a five-year period, starting from the launch date of this Sub-Fund.

The reference NAV used for calculating the performance fee is the Net Asset Value at the start of the period increased by the performance of the index as here above described taking into account the value of subscriptions and redemptions during the calculation period. If a shareholder redeems the shares before the end of such period, the right to the performance fee, accumulated but not paid on these shares, shall be set aside and the fee shall be paid to the Investment Manager at the end of the period.

An accrual shall be made if, on the one hand, the NAV before payment of the performance fee as of the Valuation Date is higher than the reference NAV and, on the other hand, the NAV per share is higher than the first NAV calculated as of the first bank business day of the calculation period.

For the Sub-Fund BASE INVESTMENTS SICAV - LEPTON:

The Investment Manager receives a performance fee, payable yearly, determined as of each day the Net Asset Value (NAV) is calculated, equal to 15% of the positive difference between the NAV and the reference NAV.

The reference NAV used for calculating the performance fee is the Net Asset Value at the beginning of the period increased by the performance of a benchmark index consisting of EURIBOR 03 MONTHS taking into account the value of subscriptions and redemptions registered during the calculation period. If a shareholder redeems the shares before the end of such period, the right to the performance fee, accumulated but not paid on these shares, shall be set aside and the fee shall be paid to the Investment Manager at the end of the period.

An accrual shall be made if, on the one hand, the NAV before performance fee as of the Valuation Date is higher than the reference NAV and, on the other hand, the NAV per share is higher than the first NAV calculated as of the first bank business day of the calculation period.

DOUBLE DIP

Subscribers are advised that when the SICAV invests in units of UCITS and/or other UCI that are managed, directly or by way of a mandate, by the same management company or by any other management company to which the management company is connected through joint management or control or a direct or indirect participation of more than 10% of the voting capital, then no subscription or redemption rights nor management fee may be charged to the SICAV within its investment operations in other UCITS and/or UCIs.

SUBSCRIPTION TAX

By virtue of legislation in force and based on common practice, the SICAV is not subject to any Luxembourg income and capital gains tax.

The SICAV, however, is subject to an annual tax in Luxembourg (*taxe d'abonnement*) of 0.05% of the net assets of each Sub-Fund, except for BASE INVESTMENTS SICAV – SHORT TERM, EUR institutional share classes of BASE INVESTMENTS SICAV – BONDS MULTICURRENCY, BASE INVESTMENTS SICAV – I.D.E.A. and BASE INVESTMENTS SICAV - EURO HEDGING, which will benefit from a reduction in this tax to 0.01% of their net assets.

This tax is payable quarterly based on the SICAV's net assets calculated at the end of the quarter to which the tax is applicable.

TRANSACTION FEES

The total amount of transaction fees is included in the statement of operations and changes in net assets and includes Custodian and Sub-Custodian fees, Correspondent's expenses and Brokerage fees.

REMUNERATION OF THE CUSTODIAN BANK AND THE ADMINISTRATIVE AGENT

The SICAV pays fees and commissions to the Custodian Bank and the Administrative Agent in accordance with practices followed on the Luxembourg market. Edmond de Rothschild (Europe) as Custodian Bank, Registrar, Transfert Agent, Domiciliary, Administrative Agent and Paying Agent, receives a commission of 0.125% p.a. calculated quarterly, based on the average net value of each Sub-Fund during the relevant quarter, with a minimum of EUR 25,000 per year end per Sub-Fund, and EUR 5,000 per year for domiciliation services.

FORWARD FOREIGN EXCHANGE CONTRACTS ON CURRENCIES

The value of investments for holders of shares belonging to a class denominated in a currency other than the reference currency of the Sub-Fund that issued these shares may increase or decrease due to exchange rate fluctuations between the two currencies. To avoid such risk, in the case of share classes denominated in currencies other than the Sub-Fund's reference currency, an exchange rate risk hedge transaction will be executed.

Contracts marked with a * are those specifically related to Share Class Hedging.

As at September 30, 2014, the following forward foreign exchange contract(s) on currencies was (were) outstanding with Banca del Sempione:
